

Application: New Member or New Associate Member

Name: _____

Title: _____

I would like to apply for membership in IAPT.

Please indicate which membership is appropriate:

I am a doctoral student in an area of Practical Theology

And I apply for 'associate membership'. Once I have received my doctoral degree, I will apply again for membership.

Associate membership includes:

- Paying (a reduced fee of) dues every two years
- Permission to participate in the IAPT conference (but no obligation).

I have a PhD and work as researcher/professor/postdoc/... in an area of Practical Theology (or a related discipline)

And I apply for 'membership' in IAPT.

Membership includes:

- Paying dues every two years
- Participating in all IAPT conferences – and sending apologies if this is not possible.

Please attach this document, and a one-page CV, to an email sent to the secretary of IAPT [tbeaudoin@fordham.edu]

The CV must include contact information, doctoral degree, current institution and country, link to website (if applicable), and representative contributions to practical theology in teaching, and/or research, and/or service.

The by-laws of IAPT indicate: "Individuals applying for Active Membership must be researchers and scholars in the practical theological fields and related disciplines. They must have a doctoral degree in any area of practical theology or who have a doctorate in another subject area but are making a substantial contribution to practical theology".

You will (normally) be informed upon acceptance of your application within one month.
